5. DELIVERY SCHEDULES:

Machines immediately available.

6. REMARKS:

Before deciding to recommend purchase, the Air Force was queried to make certain that we would not be duplicating on expense. The Air Force Commander at Detachment B area has advised the CHALICE Commander there that he does not expect to see a base laundry facility in operation prior to 1 July 1961 and that it is not programmed for until that time under the Military Construction Program. At the present time the only laundry service is provided by four base owned machines, three years old, and constantly in need of repairs. [REDACTED]
